UPDATE TO THE HALL RENOVATIONS

As with all renovations, we have encountered a setback due to previous water damage repairs to the ceiling, additional electrical wiring, and heating duct repairs due to aging. These items required repair before we could reinforce and properly prepare the ceiling for drywall installation. Next week, the drywall installation will commence, followed by taping, sanding, and painting. We expect this process to take approximately two weeks. The flooring, electrical finishings and carpeting will follow. We will continue to keep you updated on the progress of the work and advise you of any further developments. In the meantime, for smaller meetings, we will be using the upper rooms in the Hall or the meeting room in the Narthex area – for larger meetings, such as the upcoming Registration for Confirmation and First Holy Communion, we will be using the Church. Kindly refer to the weekly bulletins for further information.

Thank you for your patience and understanding.
